1. At the suggestion of the Chief, Engineering Staff, OC, we forward herewith a copy of a disclosure of invention in Method of Controlling Flux Paths developed under our Contract No. ND-107, Task Order No. 1, with [redacted] The Contractor has elected not to file a patent application on the invention. Under the circumstances, the Government has an option, by the terms of the contract, to take an assignment of the invention and seek patent protection on its own behalf.

25X1

2. Our practice in cases of this sort is to ask the requisitioning office, OC here, whether it wishes to exercise the option on behalf of the Government. OC has in turn requested that the question be submitted to your Board in an effort to obtain an Agency-wide appraisal of the invention.

3. It will be appreciated therefore if you will let us know whether the Board will consider a matter of this kind and, if so, whether it thinks the invention in question is of sufficient importance to the Agency or the Government <sup>as a</sup> whole to warrant the interested office in proceeding with an effort to obtain a patent. Additional information on the invention may be obtained from [redacted] of OC-E, [redacted] the project engineer, or we will be glad to write directly to the Contractor.

# Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Engineering Staff/OC

DATE: OCT 23 1959

FROM : Contracting Officer

SUBJECT: Contract No. RD-107, Task Order No. 1

1. With reference to your memo of 6 August 1959, we have been again informed [ ] (copy of letter of 10/13/59 attached) that it does not intend to file a patent application on Docket No. [ ] earlier identified as [ ]. Since the latest docket number assigned to this invention, i.e. No. [ ] as reported in your memo, is not mentioned in the present [ ] memo, it is possible that the writer of the memo is confused as to the disposition of the invention.

2. The matter is called to your attention in order that you may determine whether you wish to obtain additional information or to submit the case to the Agency Patent Board as suggested in your memo.

3. Please let us know what further transpires with respect to this invention.
